THE COMPANY

Framinia Services is a business consulting company based in England, Italy and Spain, offering a wide range of business services throughout Europe and the Middle East.

The company offers all-round assistance in the management of large events, private, public, musical, sporting and live events, film productions, TV programmes and theatre performances.

We can assist the employer in planning the risk assessment of his company by preparing the risk assessment document, appointing safety officers, covering all aspects related to emergency management, establishing a plan for health surveillance, and providing supervision during the construction and site phases.

CUSTOMIZED SERVICES

framinia
services

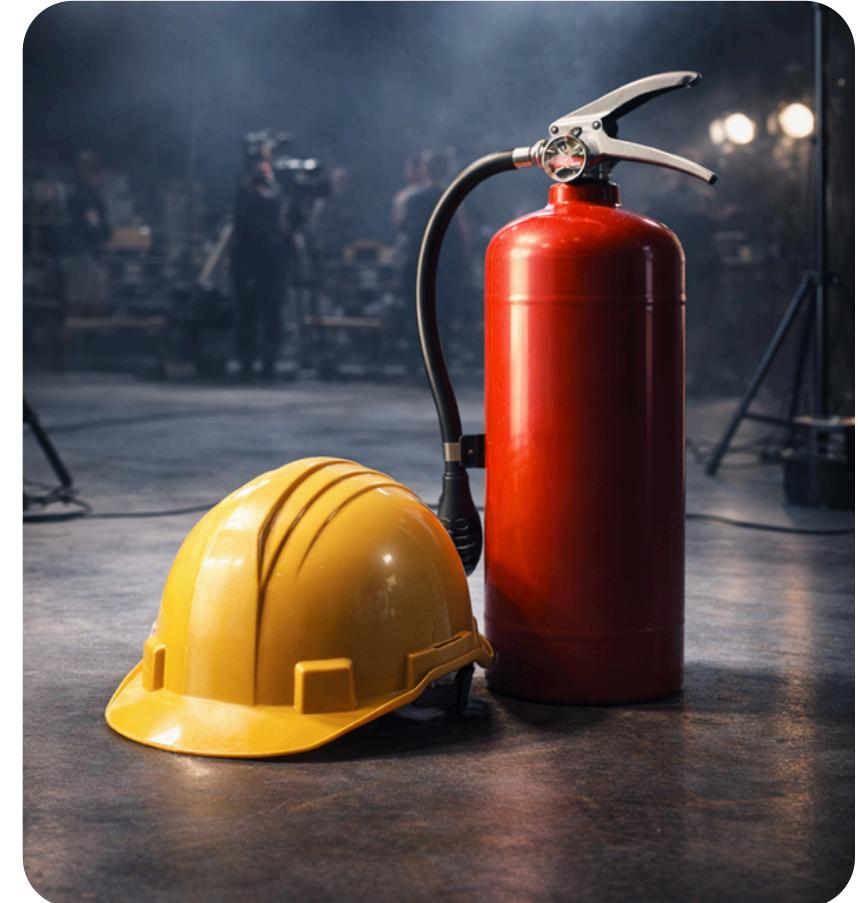

*Boost your workplace standards with our
tailored services.*

HEALTH AND SAFETY IN THE WORKPLACE

Framinia Services supports production by providing all necessary activities to ensure compliance with current occupational health and safety regulations in Europe and the Middle East.

Our health and safety consultants can assist your company by carrying out the following activities:

- Technical assistance during the location search phase;
- General and specific risk assessment;
- On-site supervision during recording or live shooting;
- Verification of the technical and professional suitability of suppliers.

HEALTH AND SAFETY IN THE WORKPLACE

1. Technical inspections

Our consultants participate in on-site inspections to identify and analyse possible environmental risks in order to ensure - during filming - a safer environment through the application of appropriate prevention and protection measures.

HEALTH AND SAFETY IN THE WORKPLACE

2. Risk assessment

Framinia Services' consultants are fully qualified to support productions with general and specific risk assessment in an easily readable and comprehensible standard document involving the entire crew.

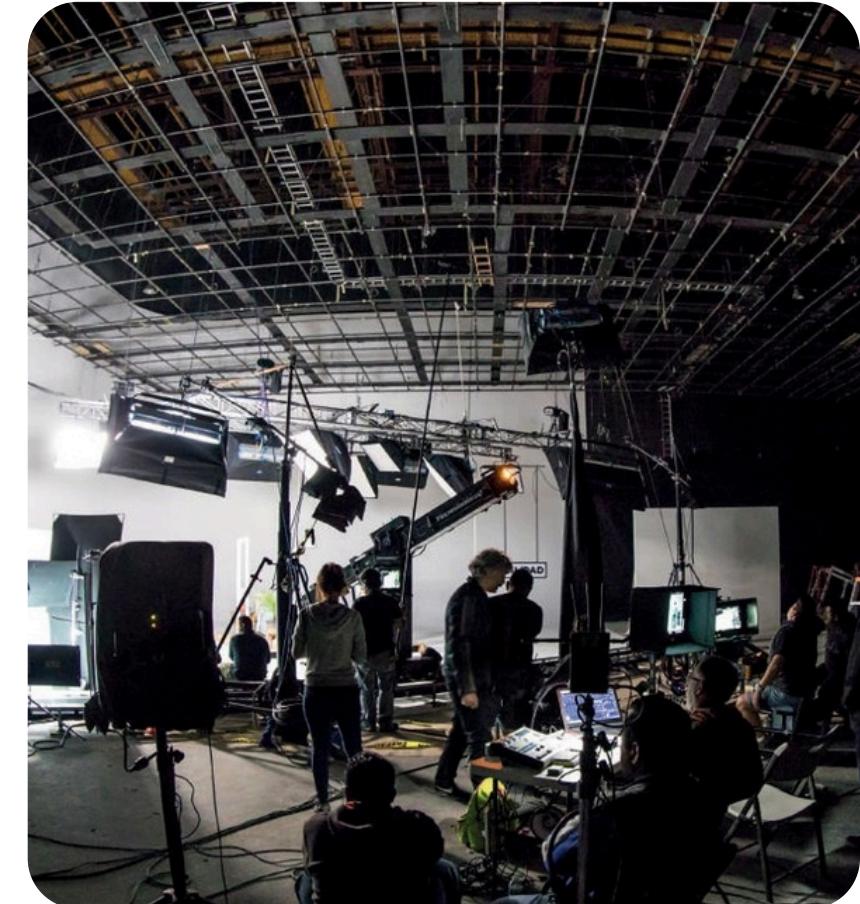

HEALTH AND SAFETY IN THE WORKPLACE

3. On-site support

Through the daily on-location support of our consultants, we assist the production during the filming phase in order to verify that the crew is operating within the legal requirements.

HEALTH AND SAFETY IN THE WORKPLACE

4. Production Compliance Safety Audits

The company carries out audits to meet the individual production's service specific application and may include:

- Compliance to Risk Assessment and the use of PPE
- Commitment, policies and objectives
- Contractors suitability

Every audit is prepared to suit the individual needs of each client's application.

ENVIRONMENTAL COMPLIANCE

Framinia Services supports the productions by providing all the necessary activities to ensure their sustainability.

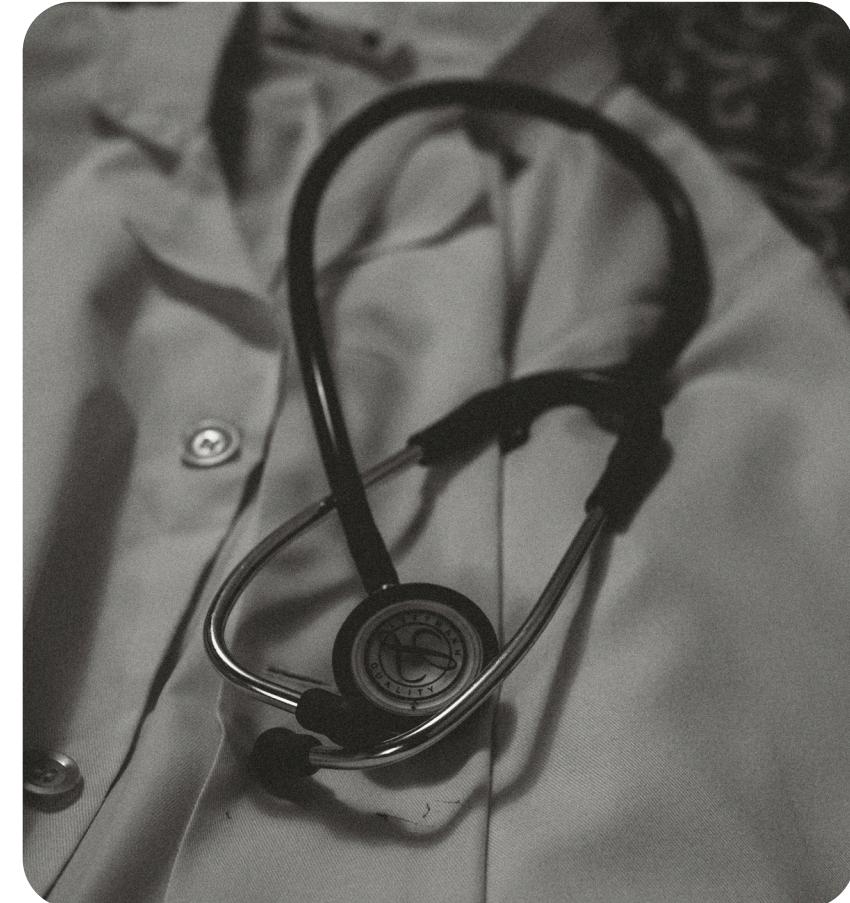

Our consultants will plan and identify the sustainability criteria to be adopted in order to minimise the environmental impact, without slowing down the work of the crew.

HEALTH SURVEILLANCE

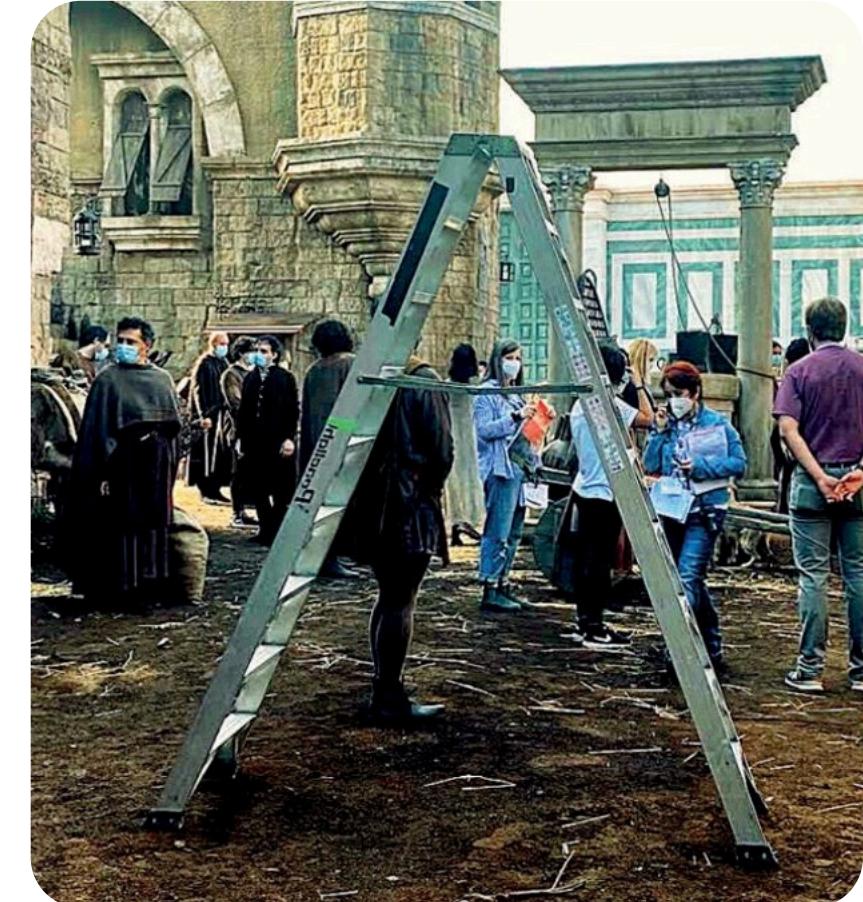

Framinia Services, in collaboration with the Cinemed group company specialising in occupational medicine, provides consultancy to companies on **health surveillance**, as provided for by Italian Legislative Decree 81/08 et seq. guaranteeing the figure of the competent doctor and the performance of health surveillance for workers.

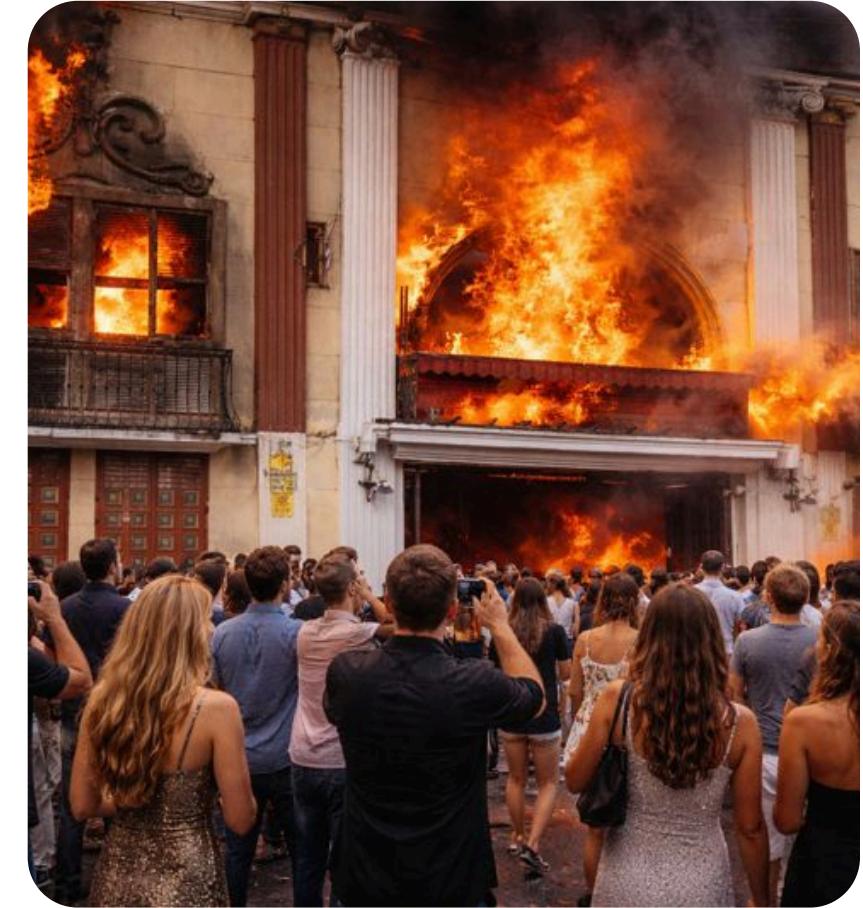

SAFETY AT TEMPORARY AND MOBILE CONSTRUCTION SITES

Framinia Services offers the advice of its professionals on health and safety at temporary and mobile construction sites. Its professionals are qualified to hold positions in project supervision, safety coordinator during design and execution, drafting and planning of operational safety plans.

FIRE FIGHTING

Framinia Services offers its proven experience in the industrial sector through its qualified fire-fighting experts. It is therefore able to design, construct and certify any type of fire protection/prevention device and system, as well as prepare all the necessary paperwork required by the fire brigade authority for the granting of public entertainment licences.

HACCP

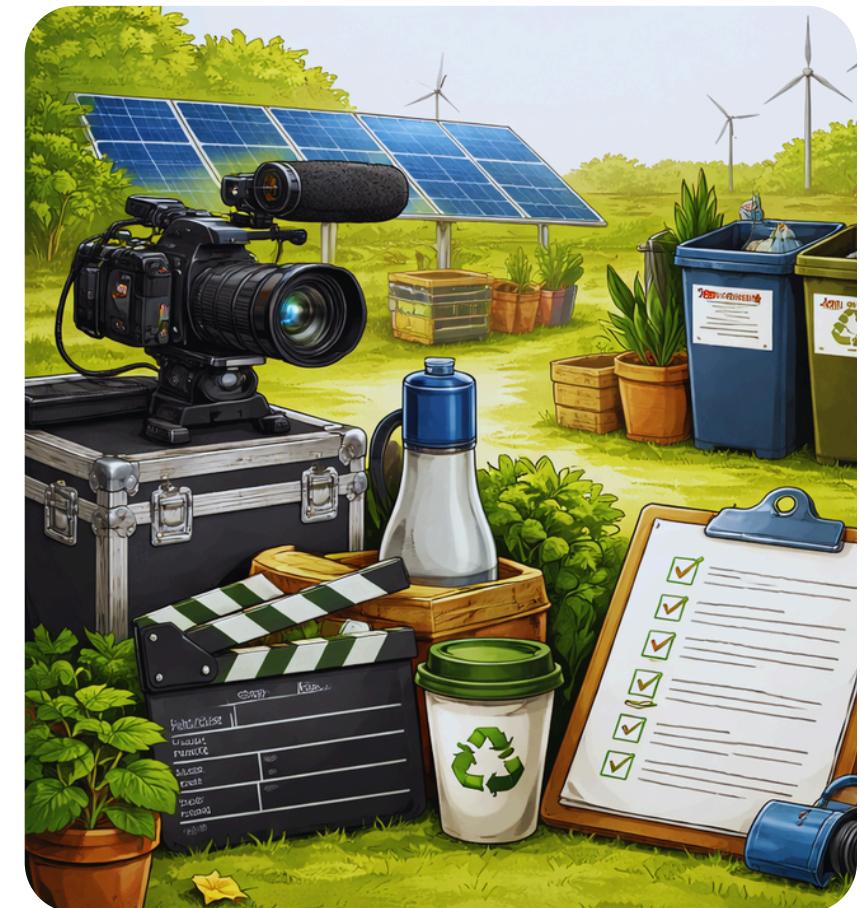

The HACCP (Hazard Analysis and Critical Control Point) system stems from the need to guarantee the wholesomeness of food and to implement a self-control procedure that every operator, in the food production and distribution sector, must put in place in order to assess and estimate dangers and risks, thus establishing control measures to prevent the occurrence of hygiene and health problems.

SUSTAINABILITY

Framinia Services, with its team of experts and green managers, will support you in achieving green certifications such as **Albert Protocol** and **Green Film label**.

SUSTAINABILITY

A team effort involving people, means and equipment who for longer or shorter periods work and move as a small, itinerant production unit in the area affected by the work. All this creates an environmental impact that the more conscious production companies wish to reduce as much as possible.

To support and guide these virtuous organisations to manage their environmental responsibilities in an organised and systematic manner, the GREEN protocols and GREEN specifications that contribute concretely to Production Companies achieving their achieve their environmental sustainability goals.

COMPLIANCE

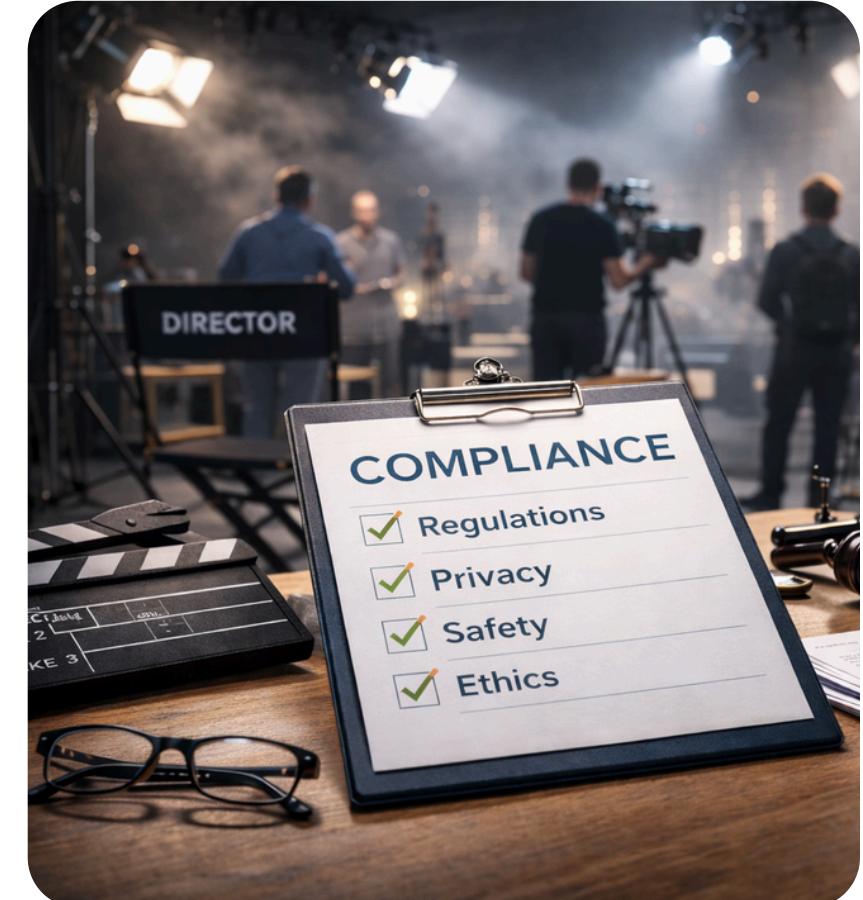

Framinia offers comprehensive corporate compliance consultancy services to assess the implementation status of relevant regulations and identify potential misalignments, thereby preventing non-compliance risks and associated penalties. Our team provides tailored solutions to ensure each client effectively applies the necessary standards.

COMPLIANCE

Our key services include the development and management of management systems across a wide range of international standards, such as:

- **ISO 9001:** Quality Management Systems
- **ISO 14001:** Environmental Management Systems
- **ISO 45001:** Occupational Health and Safety Management Systems
- **Environmental Compliance:** Analyzing applicable environmental requirements, assessing conformity, and measuring risks of legal or administrative sanctions due to non-compliance.
- **D.Lgs. 231:** Implementing organizational models to prevent corporate administrative liability.
- **GDPR:** Ensuring compliance with the General Data Protection Regulation for personal data protection.

TRAINING

Framinia Services, through its group company Framinia Academy, designs and delivers occupational health and safety training courses in classroom and e-learning mode, for the Rome and Milan sites.

Through a team of qualified lecturers, it guarantees, based on the customer's training needs, total support for the conduct of all training courses, with particular reference to those in the field of occupational safety.

Occupational safety training is a fundamental prevention and protection measure that employers can implement in order to protect their workers.

TRAINING

The Following Specific Courses Are Also Available On Request:

- Specific Training For Location Managers;
- Specific Training For Stunt/Sfx Coordinators;
- Specific Training For Live Event Management;
- Specific Training For Work Management Within The Studios.

TRAINING

We host the courses at our offices, but also run training courses on location.

Our e-learning courses are delivered through a specific IT platform and are divided into subject areas. For occupational health and safety training courses, the platform provides for continuous and mandatory interactivity between the teaching platform and the course user, as required by the State-Regions agreements of 24.05.25, and the issuing of the certificate following the passing of the learning assessment test.

Framinia Academy is also ISO 9001 certified.

TRAINING

Our Courses Are:

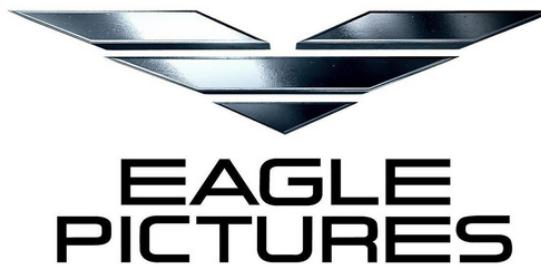

- General And Specific Training Courses For Workers In The Film And Audiovisual Sector;
- Fire-Fighting Courses;
- First Aid Courses;
- Haccp;
- Safety Officer Course;
